Infinity TS-260C7 Profile Engine

200010 Body without lens

Being able to produce perfectly calibrated colours by using a 7 colour Lumiled LED engine is the big advantage of the TS-260C7 Profile engine. Infinity combined 64 of the most used theatrical colours into a built-in virtual stroller. Add to this a CRI value which is consistently higher than 96 over the entire CCT range and the TS-260C7 becomes a formidable addition to any application where different moods in a high quality of light is needed. Equipped with 7 different DMX modes finding the right operation modus is no issue.

Features:

- Delivers the performance of a 750W Tungsten Halogen unit
- 260W Lumiled 7 colour LED engine using custom designed array
- CRI > 96 Consistently on full CCT range
- LED Colour Linearity Compensation
- LED Colour Temperature Drift Compensation (on all LEDs)
- Optics Colour Shift compensation
- Colour wheel with 64 spectrum matching Filter gels
- 2000 – 8000K Seamless CCT channel
- RGB, CMY and HSI Colour control
- 16 bit Intelligent high resolution virtual dimming
- Tungsten mode with natural colour drift & timing simulations
- Flicker-Free with selectable PWM by DMX
- RDM allowing for remote setting and recall of information
- Custom design silent cooling system
- 1CH DMX mode for conventional replacement
